DIRECTORY USERS

This directory is often of highest value to you, the information you get out of it is sometimes indispensable. Please remember that without the co-operation of the advertisers in the book you would be wholly deprived of the use of it.

All We Ask of You

is not to be dumb when you are calling for goods advertised herein; let the advertiser know you read his adv. Too many of us are afraid we will get ourselves under an obligation to buy, or something, when we speak of seeing advertising, especially general advertising like that in a directory, but this is a mistake.

continued revision of this, or any

The Sign Over Your Door

Is a good thing, isn't it? You would not think of doing business without it.

But it is only seen by those who pass your way.

If you could put a sign where everyone could see it, it would interest you, would it not?

THE DIRECTORY

is where people look for you when they want to do business. You should make it easy for them to find you by putting such information as the buyer wants in the Directory, properly indexed under all the headings where he might look for you.

To be properly registered costs less than to be left out.

ACCURACY VS INACCURACY

¶A well rated grocery store displayed a card in its window bearing the sign "Hubberson Apples."

¶The apples were unconscious of the error in spelling Hubbardston, but the ignorance of the sign writer made the advertisement a joke instead of a trade maker.

¶When you misspell a customer's name, he or she cannot be as unfeeling as the apples.

¶Keep your trade and prestige by being careful and accurate in details of this kind. Do not commit the offense of misspelling a patron's name.

City of Beverly
STREET AND HOUSE DIRECTORY
1926

Giving the location of the streets, places, parks, etc., and showing what other streets and places run from them or across them, with the point at which they intersect. The system adopted for numbering the streets of the city is that a person starting at the beginning of any street and following along with the numbers, every even number will be on the left and every odd number on the right (§), with the names of heads of families and persons in business in the order of location.

The cipher (0) is used to designate houses or buildings without numbers. The dash (—) is used to show where connecting streets and avenues cross or intersect, when such intersections or crossings have no number, and also to designate railroad crossings, bridges, parks, etc.

When there is more than one family in a house, the down-stairs name is usually given first.

Abbreviations: Ave., avenue; byd., beyond; groc., groceries; jct., junction; n., near; opp., opposite; r., rear; rep., repairing; smr., summer; s. r., summer resident; var., variety; etc., etc., etc. Houses having erroneous numbers are sometimes enclosed in parenthesis (—).

*Indicates telephones.

‡Exceptions to this rule occur occasionally.

FIRST DIRECTORIES

¶The very first Directory issued in book form was published in 1595—in London, England—during the reign of Queen Elizabeth. This interesting book, containing only the names of such “Gentlemen” as the publishers thought fit, was entitled: “The names of all such Gentlemen of Accompts as were residing within the City of London.

¶Just 137 years later (1732) the first publication bearing the name “Directory” was issued in London. One of the chief difficulties of Directory publishing at this early period was the lack of house numbers, and because of this many houses were known as “The Black Bear,” “The White Swan,” “The Six Golden Lights”—or on such and such a road, next door to the goldsmith’s. House numbering did not become general until 1800. Difficulties had to be overcome gradually until the present system of street and house numbering was evolved.

¶The Directory publishers have always been of great assistance to the authorities in the house numbering problem.

**CROWLEY & LUNT'S
CITY OF BEVERLY
BUSINESS DIRECTORY****1926**

Beverly, clean, healthful and beautifully located on the North Shore, with seven miles of the most charming views to be found on this continent, recommends itself to all classes of manufacturers and business men on account of its first-class rail and water facilities and equitable freight rates to all shipping points. Its most significant growth proves it to be the coming city of this part of the Massachusetts coast. With a valuation of nearly \$40,000,000, within its limits are scores of millionaires' and multi-millionaires' palaces. The manufacturing industries comprise shoes, machinery, oil, oiled clothing, foundries, mattresses, planing mills, wood and paper boxes, grain elevators, electric works, etc. The shoe industry, established more than a century ago, pays a large annual wage.

The United Shoe Machinery Company, occupying one of the largest reinforced concrete factory plants in the world and employing 5,000 mechanics, pays a wage of over one and one-half millions per year. The Gulf Refining Company has its New England terminal here and docks its fine steamships running from Port Arthur, Texas. Spur tracks of the Boston & Maine Railroad connect with all the wharves. Population of Beverly, 1926, estimated about 28,000. Eighteen miles from Boston on the Boston & Maine Railroad, Eastern Mass. Street Railway connections to all nearby points. Superior harbor. Four banks. Daily newspaper. Excellent fire department. Good sewers. Well-lighted streets. First-class public schools. Good hotels and theatres. Public school playgrounds costing over \$40,000. Modern bath house at Oceanside Park.

NOTE:—It has been found essential (as a general rule) to insert names of firms under the ONE heading only which best represents them, except in the case of patrons, when extra insertions are sometimes made.

SPRING POND

is situated in the northern part of the town, remote from any habitation, and has a nice clean gravelly bottom, with a number of boiling springs, making it very desirable for domestic use.

IT IS THE PUREST ICE SOLD ON THE NORTH SHORE

Is purity is attested by the analysis made by the State. On our request the State Department of Public Health made an analysis of our ice.

"The results of the analysis of a sample of ice collected from an ice house near the pond show that it is of good quality for domestic use."—EUGENE R. KELLEY,
Commissioner of Public Health

Early History of Directories

¶Many centuries ago, long before we had Directories, it was the custom of persons having goods for sale to stand on the street corner and tell the passers-by of their wares. The stranger looking for his friend searched from house-to-house or in the market place, crying his question until some one answered.

¶Next came the Town Crier who, hired to seek and give information, wandered through the highways and byways ringing his bell and crying "Hear ye, Hear ye" until his mission was completed. With the growth of population this picturesque service became unsatisfactory and expensive and was abandoned for information regarding the community, gathered at stated intervals. And then, with the invention of the printing press, came the publishing of this important data!

FIRST AMERICAN DIRECTORY

¶ Benjamin Franklin's name appears in the first American Directory, which was published in Philadelphia in 1785. This book contained 85 pages with 3570 names.

¶ Only four of the New York Directories of 1786 are now in existence, and that they are valued highly because of their historical value is shown by the fact that one sold at auction a few years ago for \$2,400.00. In this edition appear the names of Aaron Burr and Alexander Hamilton, side by side. Little did the compiler dream that these two were to meet in deadly combat across from New York, under the shadows of the beautiful Palisades, on the Jersey side of the Hudson river.

¶ Three years after the publication of the first New York Directory, Boston came out with her "First Edition," which was in pamphlet form and contained 56 pages. People were not as democratic in those days as they are now, and instead of the names being listed alphabetically the compilers attempted to give the names in accordance to rank and standing in the community. In this little booklet we find the name of our old friend Paul Revere (goldsmith), 50 Cornhill St. Heading his advertisement was a Liberty Bell—the same dashing spirit that led him to be the first to warn "the country people to be up and to arm," made him one of the first to advertise in the City Directory.
